Not only does the application allow users to scan QR codes, links and barcodes, it even allows them toAround with and adjust the configurations of the CT and choose your favorite search provider from a wide list of predefinements or designating your own custom search provider. For a free application, QR Scanner RS has a lot to offer, and the app doesn't even have dwarfs. Since this is the case, if you happen to use the application and like it, there is absolutely no reason for you to do people for the application of the

application a favor and donate $ 0.99 for They to show their support and appreciation. In addition, giving the application a decent classification and Windows Phone Store review is a good idea. You can download qr scanner rs here. QR Scanner+ (Costs $ 1.99) Many wonder exactly why they should pay a pair of dome to an application that is designed to simply allow your phone to scan QR and barc sheets.
