alternative market, which represent more than 90% of the capitalization of the national issuers listed on the WSE. First, companies must learn how to assess and report greenhouse gas emissions, because there are serious shortcomings in this area. In 2018, 46% of the companies did not score any points, and this share decreased by only 2 percentage points on an annual basis. A "This is the first such study on climate awareness of entities focused on the capital market in Poland and, as far as we know, unique internationally. The study is conducted according to a well-established and transparent methodology and is based on information provided by companies in their annual reports. +48 601 664 247 Study Information: The study Corporate Climate Crisis Awareness A a project of the Foundation for Reporting Standards, Polish Association and Bureau Veritas. The study covered the annual reports of all the companies listed on the Warsaw Stock Exchange in Poland, subject to non-financial disclosure , for two consecutive years (2017 and 2018). main of the SEG A is to provide support to enterprises with regard to information (information on changes Education (organisation of seminars and conferences) and legal aspects (drafting of legal opinions, recommendations and interpretations of new legislation). The company supports its customers in sustainable development translating the values of CSR in concrete actions. Only 32 companies have reached more than 2 points, with only 6 companies that have reached a minimum of 5 points. The registration document includes in particular: the 2018 annual financial report, comprising the statutory budgets of Bureau Veritas SA and the Group's consolidated budgets; the report of the Board of Directors on Corporate Governance; information relating to compensation paid to the legal auditors for the financial year 2018; information relating to the description of the share repurchase program; Social, social and environmental information that constitute the non-financial declaration ("D&A © Claration de Performance Extra-Financi&A Re "). For this reason this study is so important - allows us to identify the main ones Deficiencies in the information published and lead to their integration before it can cause serious commercial problems, A e a e commented Miros&A ... AAW Kachniewski, president of the Polish Association of the listed companies. Our study shows that the climatic awareness of companies Polish is low, but the fact that this study has been conducted, after the analysis of over 150 stock exchange reports by independent institutions, has a value in itself. Almost the half of the companies in our studio has obtained zero points , which means that there are no references to climatic issues! A, together with increasingly ambitious reduction commitments assumed internationally. For more information, contact: Piotr BierNacki, Foundation for Reporting Standards, tel. A e a e a e a e a e the, the conclusions of the study for the years 2017 and 2018 are not encouraging. It is an analysis conducted on the entire population, ie on all listed companies subject to the reporting obligation. The Foundation, Foundation, The consultation process, has developed and conducted the general principles of information (General Reporting Standards, OSR) related to the communication of prices by listed companies and the standard for non-financial information (non-financial information standard, sin) relative to Communication of non-financial information. The more that this is not just a matter of awareness, it also has an increasing impact on capital availability or even on business results. Later, but still in the near future, they must move on to the implementation of effective policies to reduce their negative impact on the environment, in order to stop contributing to the climatic crisis aggravation, A e a e a e a e added Piotr BierNacki . In 2018 the average result for the firm company was 1.03 points (out of 10 possible), with an increase of only 0.09 points compared to the previous year. The universal nature of the foundation and cooperation with organizations that associate various groups of subjects interested in the market make the OSR environmental standards and sin. The very low results were achieved by one hundred and fifty companies listed in the first Corporate Climate Crisis Awareness study conducted by the Foundation for Reporting Standards, from the Polish Association of listed companies and the Bureau Veritas. Also, you will have problems getting funding, why which bank will grant a loan to a business that is losing the markets? Bureau Veritas Bureau Veritas is a world leader in laboratory testing services, inspection and certification. The average score was 1.03 out of 10 possible points, with 66 companies out of 143 (over 46%) that did not even reach a point fraction. A e a e a e In Poland we find ourselves in a phase where we have to put us quickly with the companies of the capital markets developed. Bureau Veritas helps its clients improve their performance by offering innovative services and solutions to ensure that their goods, products, infrastructure and processes meet standards and regulations in terms of quality, health and safety, environmental protection and social responsibility.Bureau Veritas is listed on Euronext Paris and belongs to the Next 20 index.Compartment A, ISIN code FR 0 006 174 348, stock symbol: BVI Thanks to a joint initiative between Bureau Veritas, the Polish Association of Listed Companies and the Foundation for Reporting Standards, we have collected and evaluated data showing how listed companies address climate issues and how they communicate them in their reports, non-financial relations, said Witold D&A TINagan, Director of Certification at Bureau Veritas Polska. The Foundation for Reporting Standards is a non-governmental organization whose objective is to improve the quality of information, reporting and communication on financial and capital markets. Results of the first edition of the Corporate Climate Crisis Awareness Study were announced at ESG Reporting and Sustainable Investment Conference adarts adarts eraibmac rep enoisacco'nu A .etatoqu Ateicos elled accalop enoizatocssa'l'lad Get closer to this global problem more and more urgent. The content of the reports was analyzed against 10 criteria. Bureau Veritas, founded in 1828, is a world leader in the TIC sector (test, inspection and certification), providing high quality services to help customers meet the ever-increasing needs for quality, health and safety of work, Environmental protection and social responsibility. The aim of the project is to regularly study which companies are aware of their impact on climate change. The Seg undertakes the work for the development of the Polish capital market and represents the interests of the companies listed on the Warsaw Stock Exchange. The Polish Association of Listed Companies (Stowarzyszenie Emitent&A&w gie&A V, Dowych) is an organization of experts from 1993. Two of them concern corporate policies or strategies concerned with regard to climate crisis management and eight reports on emissions of greenhouse gases. Emissions.
